

IS YOUR KITCHEN PREPARED?

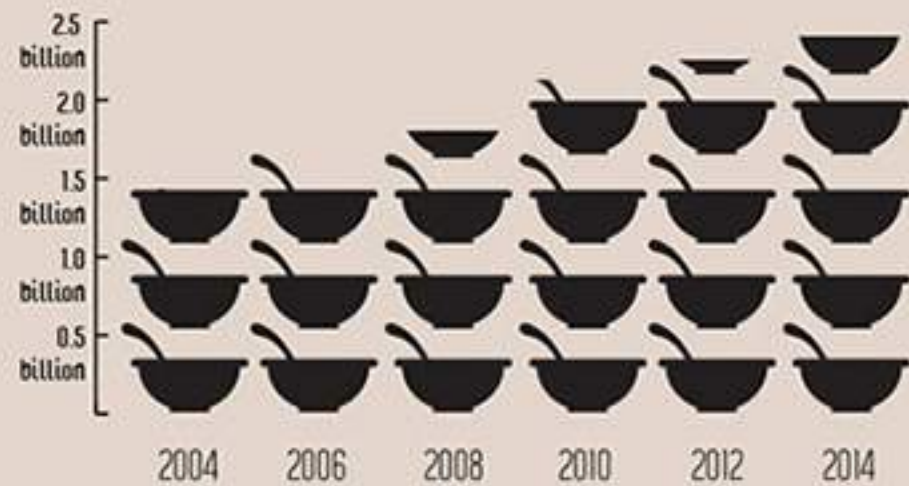

With the new nutritional requirements and more students eating cafeteria-served meals, your kitchen equipment is working even harder to keep up.

RISE AND SHINE

Every day, **12.6 million breakfasts** are served to kids across the nation—and that number is increasing.

GROWING TREND:

In the last 10 years, the number of school breakfasts has increased by

49%

2014: 2.27 BILLION BREAKFASTS ANNUALLY

LUNCH RUSH

While some brown-bag it, the majority of schoolchildren **eating cafeteria-prepared lunch is on the rise.**

MORE THAN 5 BILLION LUNCHES ARE SERVED ANNUALLY

56%

buy lunch

44%

pack lunch

2 HOURS

is the average time between
breakfast and lunch periods.

With breakfast starting at 7:30 a.m.
and lunch at 11 a.m., your kitchen
cannot afford downtime.

TIGHT TURNAROUND

THE DAILY GRIND

If your refrigerator breaks down, time is of the essence, since milk stays safe for only

2 HOURS AT 40°F.

New nutritional requirements mean **more strain on different appliances**, such as refrigerators and ovens.

— 120 MIN

— 90 MIN

— 60 MIN

— 30 MIN

THE DAILY GRIND

Baked foods replace traditional fried foods, so your ovens are likely working overtime.

New nutritional requirements mean **more strain on different appliances**, such as refrigerators and ovens.

FUTURE FARE

At the current rate, the average school district could be serving more than 700,000 meals a year by 2025. Is your equipment ready for these new demands?

7.2 BILLION

meals served nationwide in 2014
533,096 meals per school district

10.7 BILLION

meals served nationwide in 2025
794,313 meals per school district
