WHAT IS SIMPLE FIX™?

Simply put, it's the smart, easy way for your team to confidently make simple repairs that keep your restaurant equipment running at its best. The Simple Fix™ mark next to parts on our website means Heritage has designated it as a safe, easy repair that you can do yourself. This saves you time, money and uncertainty, and makes you the hands-on hero your business counts on.

WHAT MAKES A REPAIR A SIMPLE FIX™?

In order to qualify as a Simple Fix™, the repair must meet three criteria:

1. You only need minimal tools.
2. You don't need to disconnect water, gas, or electric.
3. There's no safety risk to an untrained person.
